

A background image showing several people holding small, dark, cylindrical wooden objects. One person in the foreground is wearing a brown, textured garment with a colorful beaded necklace. The image is slightly blurred, creating a sense of movement and community.

IMPACT REPORT

LONDON ACTION CLIMATE WEEK

Five days connecting community-led climate solutions with
global action.

LONDON, UNITED KINGDOM · 22 TO 28 JUNE 2026

IF NOT US
THEN WHO?

CONTEXT

CONNECTING RIGHTS, NATURE AND CLIMATE TO SCALE UP SOLUTIONS.

London Climate Action Week is one of the most important global gathering moments for climate, nature, and finance conversations. As organizations look beyond traditional climate spaces, London is where more integrated, inclusive, and forward-looking dialogue takes shape, grounded in collaboration, community leadership, and collective action.

At LCAW 2026, we activated as both a co-creator of the Rights & Nature Hub and as a program partner. We hosted collective sessions, launched two major initiatives, and provided the multimedia and communications infrastructure for the week. Our role sits at the intersection of two things we do: connecting community-led climate solutions with decision-makers and funders, and using audiovisual storytelling to bring forward lived experiences and knowledge that rarely reach formal climate spaces.

CONTEXT

OUR GOALS

Activate donor engagement with community-led storytelling

*through attendance, curated
introductions, and follow-up
conversations with funders and
philanthropists*

Build strategic connections between communities and funders

*creating direct pathways between
territorial leaders and those with the
capacity to resource their work*

Expand audience reach and visibility of community voices

*amplifying Indigenous, Afro-
descendant, and local community
leadership through digital reach,
media presence, and live
programming*

The week demonstrated that meaningful change is driven by collaboration and collective action. Bringing together Indigenous Peoples leaders, climate funders, legal practitioners, filmmakers, youth advocates, and government representatives created opportunities for new partnerships, stronger commitments, and shared solutions. The connections built throughout the week are already shaping future negotiations, funding decisions, and work on the ground.

ABOUT THE HUB

A shared space for climate, biodiversity and community leadership.

During London Climate Action Week, a group of aligned partners co-created the Rights & Nature Hub, designed to foster more inclusive, meaningful, and action-oriented conversations.

The Hub was a collaborative, unbranded gathering space where partners, allies, and global actors could connect through workshops, launches, strategy sessions, networking moments, and community-led conversations.

It was both a practical home base and a space for solidarity, supporting deeper relationship-building, shared learning, and cross-sector collaboration throughout the week.

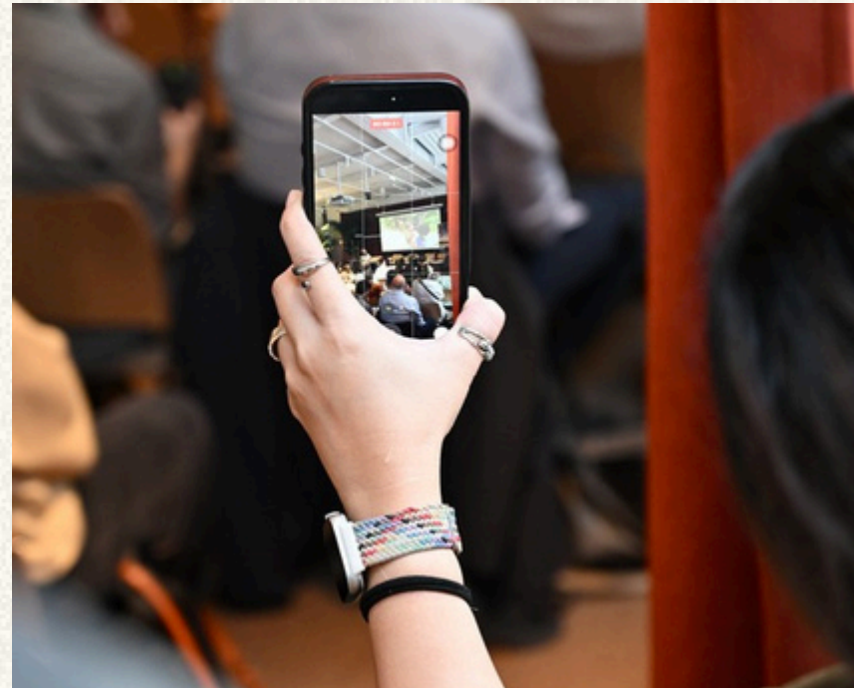

THE HUB FEATURES

Cultural Nights

Evening gatherings celebrating culture, storytelling, music and community connection, creating space for exchange beyond formal programming.

Media Centre

A dedicated space for interviews, content creation, press engagement and amplifying partner voices and narratives throughout the week.

Communal Hub Working Space

A shared and welcoming environment for collaboration, informal meetings, networking and collective working sessions.

Weave the Heart Beyond The Map

An immersive exhibition connecting Indigenous Peoples in voluntary isolation and shining a light on the growing pressures facing their forest territories.

THE HUB

BRAND & IDENTITY

CONCEPT BY IF NOT US THEN WHO?

A VISUAL ECOSYSTEM

The visual ecosystem for **The Rights & Nature Hub** is designed as a **living**, welcoming landscape—grounded, fluid, and deeply connected to **care and collective stewardship**.

Inspired by rain in the desert, early ocean light, earth textures, and open skies, the identity draws from natural palettes of sand, water, clay, moss, and sun to **create a feeling of renewal and belonging**.

Through soft movement, organic forms, and seamless layers, the visual language reflects an **Earth reimagined**: inclusive, alive, and **rooted in our relationship** with one another and the natural world.

HELD BY THE EARTH

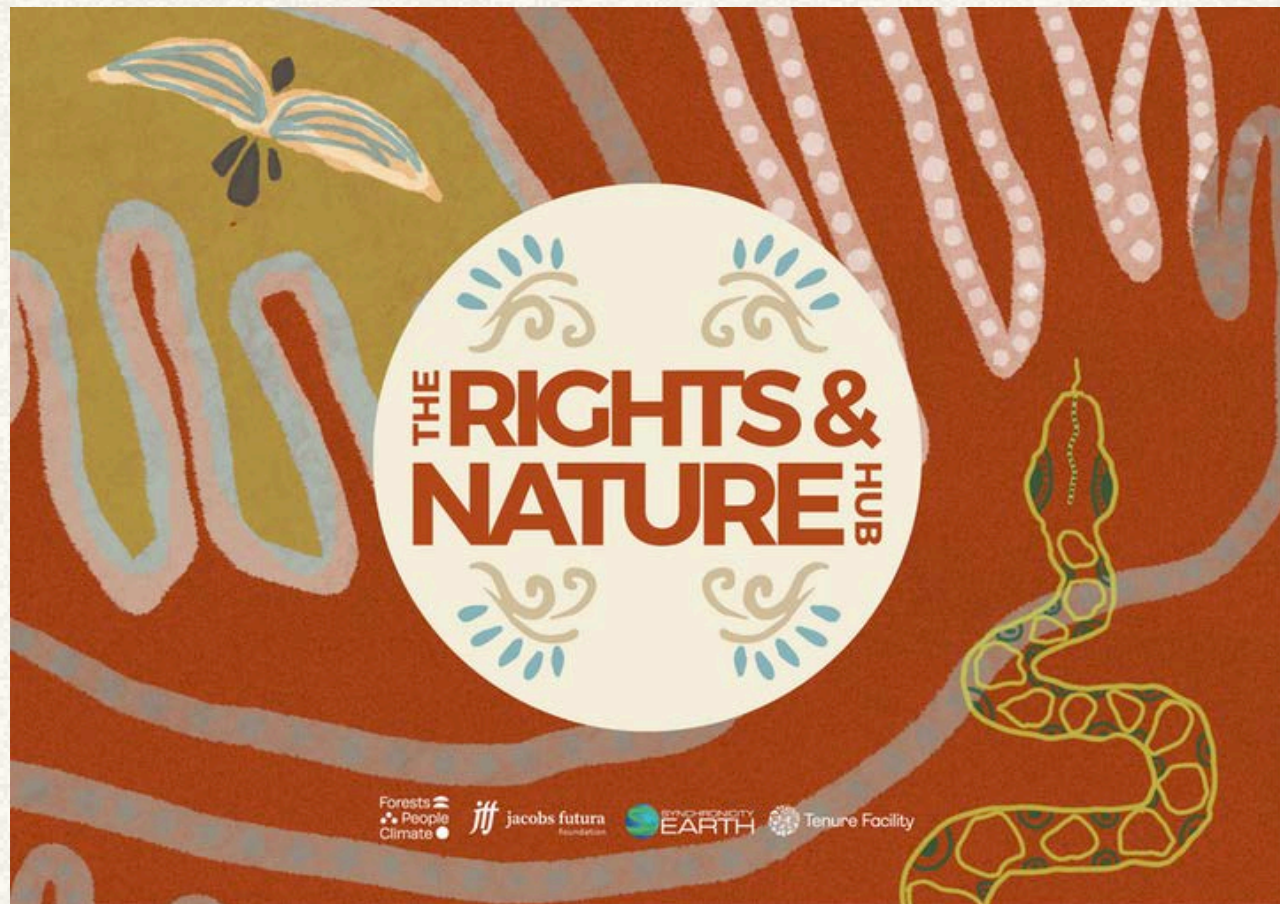

Our team developed the Rights & Nature Hub brand from the ground up, from concept and visual identity to physical space design and all event materials. We led the full creative process because we understood what the Hub needed to be: not just a venue, but a living space held by the earth and the movements it carries.

THE RIGHTS & NATURE HUB

We shaped the visual identity and creative direction of the Hub to amplify its presence, strengthen its message, and create a cohesive space where partners, stories, and conversations could connect with wider audiences.

IN NUMBERS

NARRATIVE VISIBILITY AT SCALE

The week's conversations reached far beyond the event spaces, with digital storytelling amplifying voices, ideas, and calls for action to a growing global audience.

240,000+

content views

38,000+

accounts reached

12,000+

interactions

Across Instagram, the campaign generated 242,048 content views, reached 38,303 accounts, and drove 11,152 interactions. Compared to the previous month, content views increased by 130% and interactions grew by 193.1%, demonstrating strong audience response and growing visibility. The increase in profile visits also reflected deeper engagement, with audiences seeking to learn more about the work and the voices represented throughout the week.

THE HUB

THE PROGRAM

We hosted and co-hosted sessions across four days of the Rights & Nature Hub, while producing multimedia coverage of the full week.

MONDAY 22 JUNE

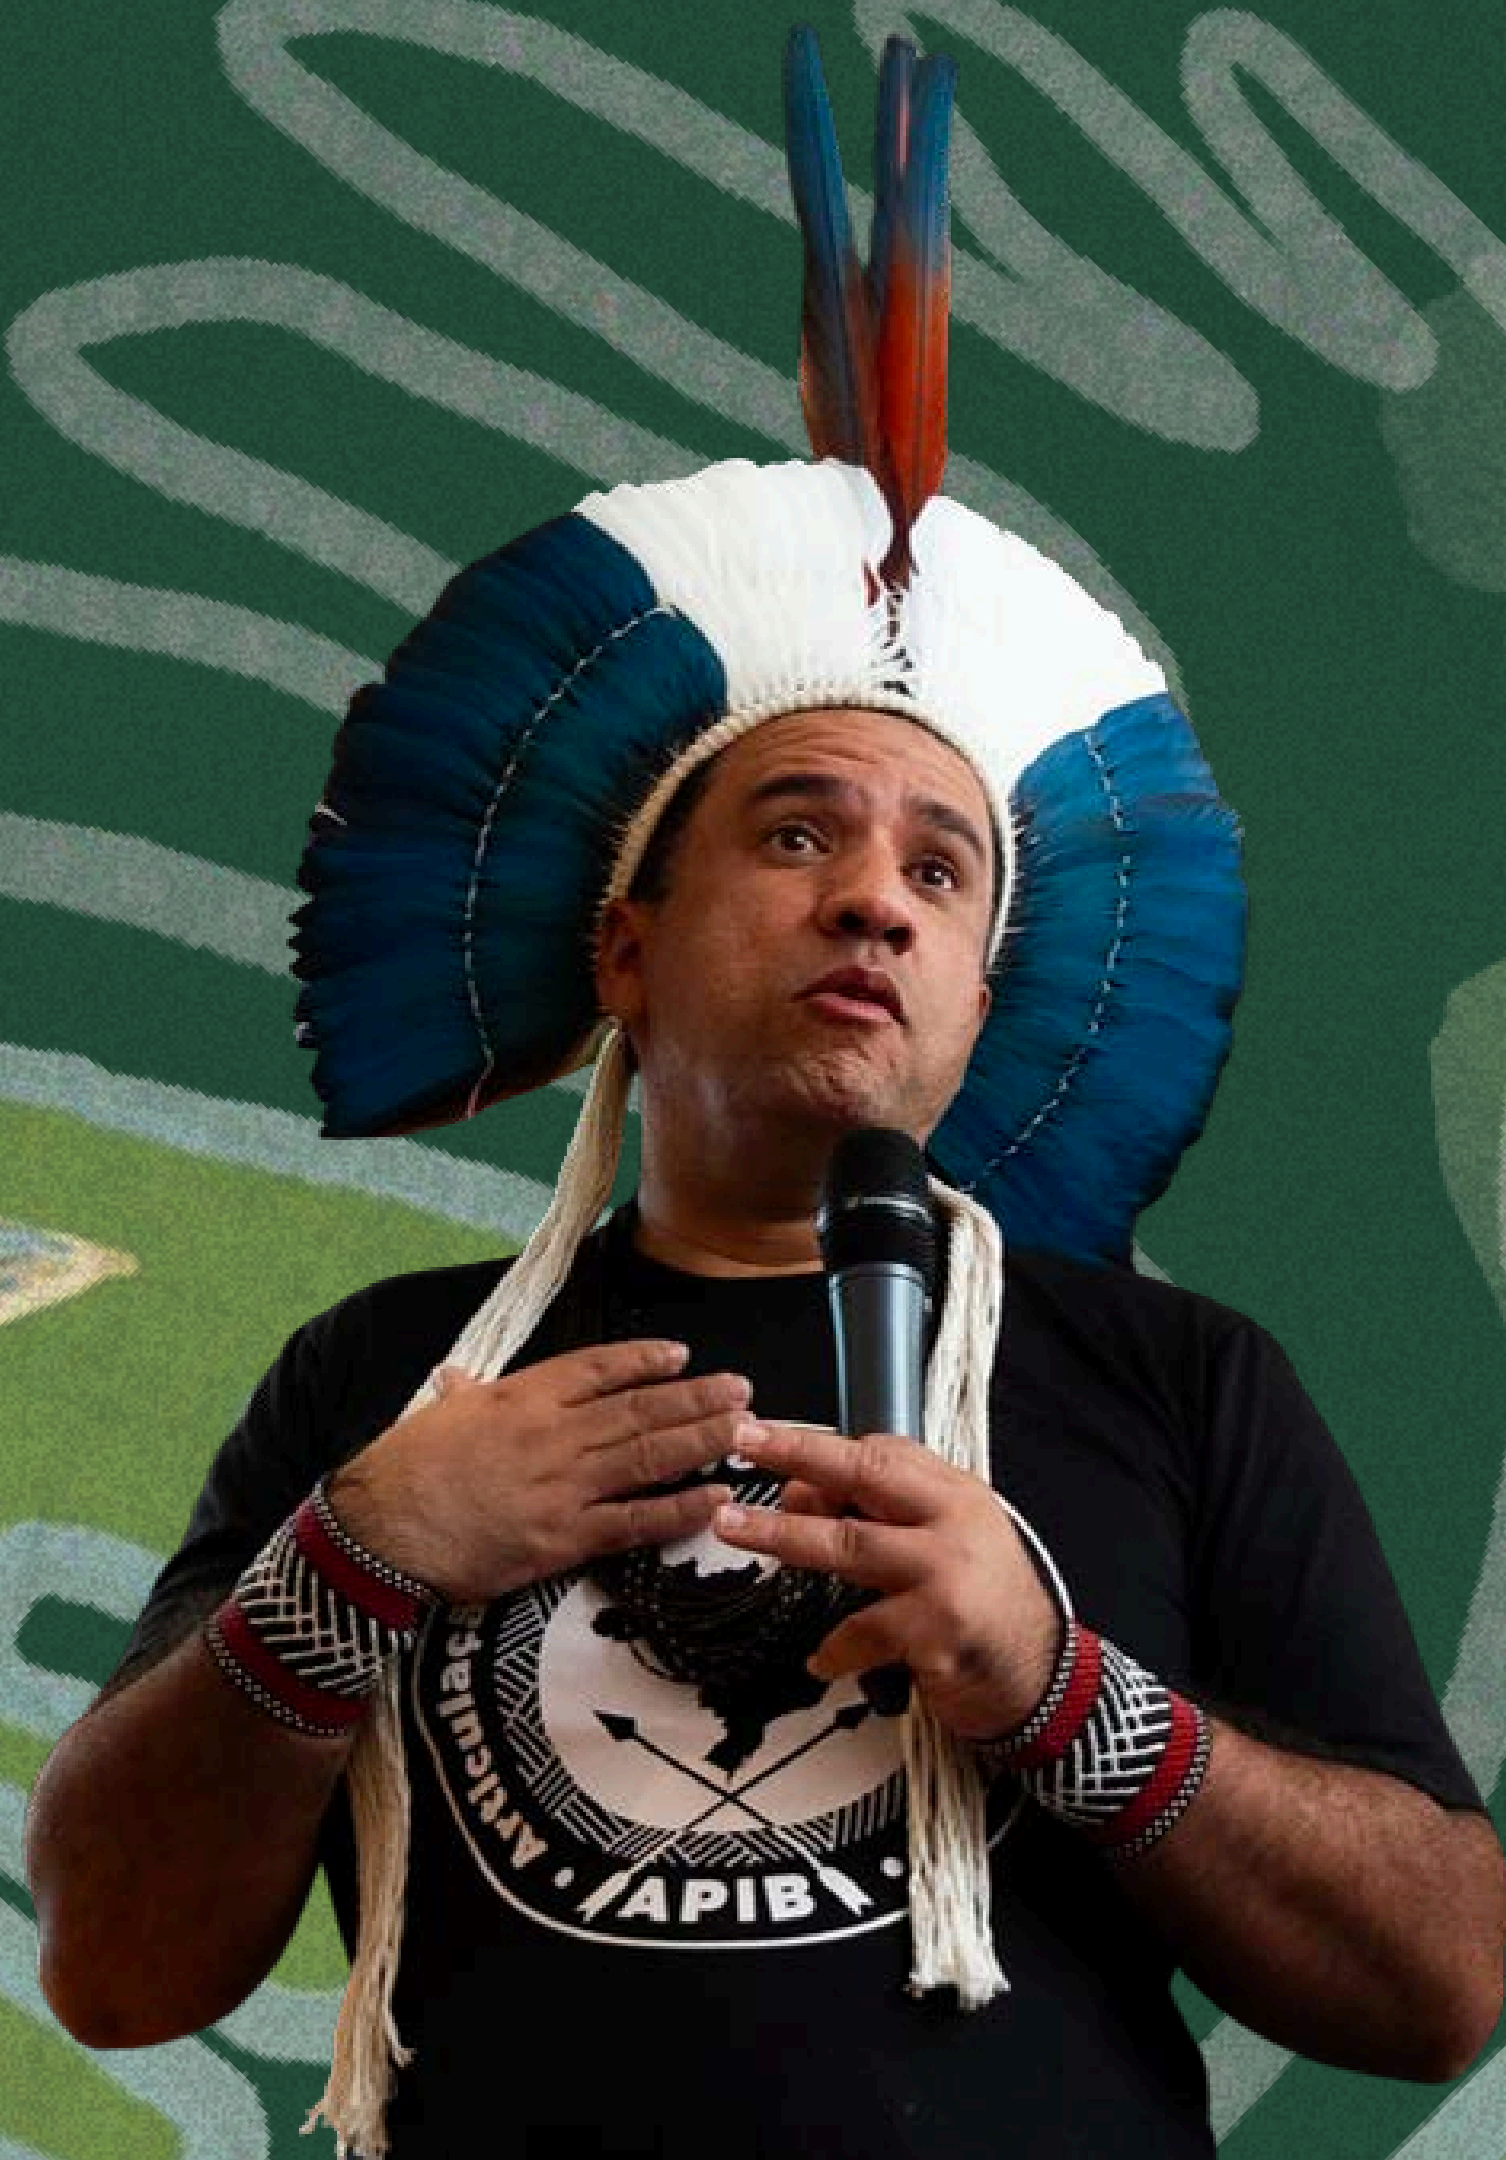

GATC 11-YEAR JOURNEY

The Rights & Nature Hub opened with a gathering tracing 11 years of the Global Alliance of Territorial Communities, through the voices of those who built it and those carrying it forward. Leaders from Indonesia, Panama, the Congo Basin, and the Colombian Amazon reflected on political and territorial milestones, the barriers that remain in getting finance directly to communities, and what it means to pass this work to the next generation. The session included a first glimpse of a film ten years in the making. A journey through the archives of GATC, tracing a decade of resistance, leadership, and change.

"The Indigenous Peoples are holding up the sky of the world. If we are holding up this sky, it is because we believe in it and are doing something to ensure that humanity can continue to survive on this planet."

**Dinamam Tuxá
Executive Coordinator, APIB**

MONDAY 22 JUNE

BEYOND IMPACT: IF NOT US THEN WHO?

Twelve years of Indigenous and community-led storytelling took center stage. Filmmakers and community communicators from across the INUTW global network shared what this work means from where they stand, in popcorn-style reflections. The session opened with a ceremonial blessing by Lucía Ixchiú, included the screening of the A Day on Earth trailer, and the opening of the Weaving the Heart Beyond the Map exhibition.

A woman with dark hair, wearing a colorful beaded top, is speaking into a microphone. She is smiling and looking to the side. The background is a stylized, abstract design with green and blue wavy lines and bird-like motifs. The text is overlaid on the right side of the image.

***“When I think of If Not Us
Then Who?, I think of it as a
pathway for narrative
sovereignty for our people
in our vision.”***

**Belai Djandam
Advocacy Manager of
Health In Harmony Global**

“One of the main things for us is partnerships. If Not Us Then Who? has demonstrated to be a partner and what If Not Us Then Who? has brought to us is this tool that we can use to shift narrative change through a storytelling.”

**Leo Cerda
Climate Activist &
Indigenous Rights Defender**

TUESDAY 23 JUNE

WOMEN LEADERS PROTECTING PEOPLE AND PLANET

Frontline Indigenous and Afro-descendant women leaders and global advocates came together not just to speak about the climate crisis, but to reframe who holds the solutions. The conversation centered on the knowledge, leadership, and lived experience of women who protect land, culture, and future generations as part of the same act: what it means to defend territory as a woman, how intergenerational knowledge shapes climate action, and why the global movement cannot move forward without women at its center.

WEAVING THE HEART BEYOND THE MAP & THE AMAZON'S BORDERLANDS

Indigenous leaders, filmmakers, and researchers came together around the urgent situation facing peoples in voluntary isolation across South America. The session opened with the premiere of an INUTW short film following Diri Etacore, a community leader and survivor of first contact, tracing the Ayoreo people of the Chaco's history of forced displacement and the ongoing reclamation of their ancestral territory. It closed with the Amazon Borderlands, an Indigenous-led effort to protect 25 million hectares across Peru and Brazil.

THURSDAY 25 JUNE

EXPLORING INDIGENOUS ECONOMIES WITH GATC

A morning ceremony and conversation grounded in Kichwa tradition, gathering Indigenous Peoples and local communities around the Guayusa-upina to share stories, set intentions, and explore territorial economies as a climate solution. Indigenous leaders and local producers from Latin America, Africa, and Asia reflected on GATC's vision for an Indigenous-led trade platform, alongside an open artisan market and a fashion catwalk showcasing Indigenous designs from across the three basins.

CULTURAL NIGHTS

Two evenings that went beyond the programme. Full houses both nights, bringing together movement partners, artists, frontline voices, and allies for music, storytelling, and community connection.

A Rights of Nature Night

Monday June 22

Indigenous and local communities from the Amazon and beyond led the narrative on nature, sovereignty, and resistance. The night featured live music by DJ Eric Terena, Sebastian Green, and Wesley Tilbrook, and was listed as one of the standout events in London on Luma.

EXHIBITION

WEAVE THE HEART BEYOND THE MAP

An immersive exhibition launched at
the Rights & Nature Hub, London
Climate Action Week 2026

Colonial maps transformed living territories into empty spaces, borders, and frontiers for extraction, obscuring the presence, sovereignty, and knowledge of Indigenous Peoples.

For Peoples in isolation, these cartographies have enabled violence through invasion, displacement, disease, and exploitation.

Weave the Heart Beyond the Map explored how we might relate to place differently. Moving away from maps as tools of possession and control, the exhibition explored mapping as an ethic of responsibility, memory, and respect.

The exhibition invited audiences to think about solidarity across distance, recognizing that care is not always expressed through encounter, but also through restraint. It centered the right of Peoples in isolation to remain uncontacted, continue living according to their own ways of being, and inhabit the lands that have sustained their communities for generations.

IF NOT US
THEN WHO?

THE COMMUNITIES

Three communities are at the center of the exhibition: the Ayoreo of Paraguay's Gran Chaco, the Awá of Brazil, and the O'Hangana Manyawa of Indonesia. Through textile installations, photography, film, and immersive storytelling, the work invites visitors to move from extraction to reciprocity, from claiming territory to caring for it, and from seeing distant places as unknown to understanding them as deeply inhabited worlds deserving of protection.

ACTIONS

MULTIMEDIA STORYTELLING

We worked as the communications and multimedia partner for the Rights & Nature Hub, bringing an Indigenous-led crew to document the week from a place of care, context, and community perspective.

Working closely with the Hub's program team, we aligned on key sessions, speakers, and moments that needed to be captured. Our approach was intentional, focusing on meaningful storytelling and quality coverage.

ONLINE

FEATURED ACROSS LONDON CLIMATE ACTION WEEK

Our sessions were featured on the main LCAW program page, driving visibility, reach, and registrations across the week. The Cultural Night, A Rights of Nature Night, with live music by DJ Eric Terena, Sebastian Green, and Wesley Tilbrook, was listed as one of the standout events in London on Luma, selling out and generating significant social media attention. Our programming was amplified across partner channels and mentioned throughout the week by speakers, attendees, and allies online.

WHAT COMES NEXT

LCAW 2026 brought together relationships, conversations, and collaborations that are continuing into the next stages of our work.

- **A Day on Earth** continues through its festival journey ahead of its global Earth Day 2027 launch, bringing the perspectives of 76 filmmakers from 27 countries to new audiences.
- **Weaving the Heart Beyond the Map** continues beyond London, creating opportunities for the stories of Peoples in voluntary isolation to reach new audiences and spaces.
- **GATC's global documentary** is now in development towards the 2nd Three Basins Summit in Toraja, working with Indigenous and local community communicators across the three basins.
- **Climate Week NYC** will provide another space to share these initiatives and expand the communications work around the key actions, people, and partnerships behind them.

IN APPRECIATION

To the Rights & Nature Hub partners who built this space with us.

To every speaker, leader, filmmaker, and community member who brought their territory into the room.

To the allies, funders, and friends who joined us.
And to the communities whose knowledge and lived experience remind us what climate justice actually means.
